DETERMINATE: Varieties that reach a certain plant height then stop growing, most fruit borne during a four to six week period.

INDETERMINATE: Varieties that continue to grow and flower throughout the season but have less mature fruits at any one time.

INDETERMINATE

SHORT INTERNODE (ISI): Varieties that combine the controlled growth habit of a “determinate” with the production potential of an “indeterminate”.

TOMATO DISEASES

Certain varieties of tomatoes have multiple disease resistance. All the varieties listed show their disease Resistance directly after the name in abbreviated form. These abbreviations represent the following:

- V** =VERTICILLIUM WILT
- F** = FUSARIUM WILT
- FF** = FUSARIUM, RACES 1&2
- N** = NEMATODES
- T** = TOBACCO MOSAIC VIRUS
- A** = ALTERNARIA STEM CRANKER
- ST** = STEMPHYLIUM GRAY LEAF SPOT

TYPES OF TOMATOES

Beefsteak: Tomatoes of various shapes, Over 10 oz.

Standard: Generally round type of fruit ranging from approx. 4-10 oz...

Paste (Plum): Generally pear or oblong (plum) shaped fruit ranging from 3-5 oz in size. Also called plum tomatoes.

Salad: Generally round fruit, approx. 2-4 oz. tomatoes perfect size for salads.

Cherry: Generally round fruit, usually one to two bites in size. Just right to toss into a salad whole. 2 oz and under in size.

HELPFUL GROWING TIPS...

•Tomatoes are a warm weather crop so the soil temp needs to be at least 60° with good drainage before you plant them.

•When you put your tomatoes into the ground, place ½ cup of Bone Meal and 1 Tablespoon of Lime in the hole before you put the plant in and mix around slightly, then place your tomato plant and back fill. This will help with blossom end rot, and your plant and fruits will be happier.

•Tomatoes like the soil ph level at between 6.4 – 6.8, below 6.4 will create blossom end rot and cracking of the skin.

•Put a 4” layer of mulch, we suggest “Gardeners Choice Organic Compost” on the top of ground around plants, as you water nutrients will leach down to the plant roots.

•**DO NOT WATER OVERHEAD WITH SPRINKLERS;** the foliage does not like to be wet. It is best to water underneath the foliage directly onto the ground.

•**DO NOT OVER FERTILIZE-** you will have beautiful foliage, but low to no fruit production.

•Tomatoes need at least 6-8 hours of sunlight daily for best flavor. More sunlight will make the flavor better. Less sunlight will lessen the flavor and the plant will get “leggy”.

‘Helpful Hints on Growing
Tomatoes and Peppers’

BEEFSTEAK

BEEFSTEAK - 96 days (indeterminate) Also known as Red Ponderosa or Crimson Cushion. Produces huge, delicious, ribbed fruit on vigorous vines. Grow in wire cages for best results.

BIG BEEF Hybrid - 73 days (indeterminate)

1994 ALL-AMERICA SELECTIONS AWARD. One of the finest new hybrids yet for home gardeners. Impressive yields of extra-large, 10-12 oz. smooth tomatoes with real old time flavor. Its improvements include greater disease resistance, earlier harvests and fruit that stay enormous even at the end of a long season.

BIG RAINBOW - 85 days (indeterminate) Heirloom

Very large, orange fruits, with red spots or streaks, grow up to 4½" in diameter. Firm, meaty flesh with low acidity, produces a delicious flavor that's ideal in a variety of dishes or eaten plain.

BRANDYWINE (ORIGINAL) - 85 days (indeterminate) Heirloom

Rich - flavored heirloom variety with a potato leaf, that has been around for over 100 years. Up to 14oz fruits that have the best flavor of all varieties. Will need to be staked.

CHEROKEE CHOCOLATE - 75 days (indeterminate)

A stabilized version of the Cherokee Purple, this 10-16 oz. mahogany-colored variety has excellent flavor and beautiful large fruit. Very productive plants are vigorous and yield a large harvest of these chocolate-colored tomatoes with the ample size and wonderful flavor associated with Cherokee Purple.

CHEF'S CHOICE PINK- 75 days (indeterminate)**NEW**

ALL AMERICAN SELECTIONS WINNER! Potato-leaved plants produce impressive yields of 12 to 16 oz. beefsteak tomatoes with deep pink sweet, meaty flesh and an irresistibly good taste. These fruits have a perfect acid to sugar ratio resulting in flavor that is reminiscent of heirlooms. However, these hybrid plants are easier to grow and yield early harvest of delicious, crack-resistant beefsteak tomatoes.

COUNTRY TASTE - Hybrid 70 days (indeterminate)

Tomato purists won't get enough of this tomato. Smooth, round, deep red fruits weighing up to 1 lb. Color is consistent from the skin straight through the center. Flesh is firm and juicy, packed with "real tomato" flavor. Produces high yields of beefsteak fruits that pay tribute to the old-time qualities of hearty, country-style tomatoes. One of the best varieties for fresh eating.

HUNGARIAN HEART - 85 days (indeterminate) Heirloom

Said to have originated in a village 20 miles from Budapest around 1900. Huge, pink, oxheart fruits weigh upwards of one pound. **Very few seeds** and almost no cracking. One of our favorites for fresh eating, canning, and for making roasted tomato sauce.

KELLOGG'S BREAKFAST - 80 to 85 days (indeterminate) Heirloom

Lovely, pale-orange fruits are solid and meaty throughout, packed with mild, superb-tasting flesh. A long-season producer of large, beefsteak-type fruits (up to 16 oz.), characterized by solid centers with just a **few seeds** at the edges. Very desirable!

MARIANNA'S PEACE - 80 days (indeterminate) Heirloom

This potato-leaved dark pink tomato is fast becoming a favorite of gardeners across the country. The large, 1-2 lb, pink-red beefsteak fruits have luscious, full tomato flavor that features a good balance of acidity and sweetness. Vigorous vines are productive, which is special for a potato-leaved plant.

MOUNTAIN ROUGE Hybrid- 73 days (indeterminate)

Perhaps the best resistance to the dreaded Late Blight yet! This **2019 AAS Award Winner** is a sister to blight-resistant but determinate 'Mountain Merit' but new 'Mountain Rouge' is indeterminate and more productive over a longer season. Fruits are reddish-pink, beefsteak size that weigh 12 to 14 oz., with a flavor that's the perfect balance of acid and sugar.

ORANGE WELLINGTON- 75 days. (indeterminate)

Bursting with flavor, this smooth orange heavyweight is plump with firm, dense, meaty, nearly seedless flesh. Tolerant to verticillium and fusarium wilts.

ORIGINAL BLUE RIBBON Hybrid - 71 days (indeterminate)

At 10-15 ounces, this tomato is a bit rounder, more uniform, and has stronger disease resistance than the Goliath.

PARK'S WHOPPER Hybrid - 65 days (indeterminate)

Earlier and tastier than the original Whopper, with big red, 4" fruits that feature improved disease and crack-resistance, as well as a more uniform fruit size. You'll start harvesting in just 65 days, and keep picking right until frost. A popular choice for fresh market and home garden alike. Vigorous and stocky plants.

PINEAPPLE - 85 days (indeterminate)

This heirloom tomato is a stand out in everyone's garden. Bi-colored red and yellow fruit grows very large, up to 2 lbs., and is streaked with red both inside and out. The flavor is wonderful, rich, fruity, and sweet. Strong vines bear an abundant crop.

RED BRANDYWINE-NEW-90 days

The Amish, long considered authorities on heirlooms, first grew Brandywine in 1885. Now 135 years later, these prized varieties, rich yet mild, are still considered the best-flavored tomatoes available. From vigorous vines come heavy yield of huge, firm-fleshed fruits weighing up to 1 ½ lbs. Scarlet red fruits and regular (not potato) leaves

SILETZ - 52 days (determinate)

Deep red, full flavored slicing tomatoes are 10 to 12 oz. and very nice for an early variety. Developed by Dr. James Baggett of Oregon State University, these plants yield well even in cool weather. Good acid taste and excellent interior fruit quality in an early tomato.

STANDARD**BLACK KRIM** - 69 days (indeterminate) Heirloom

A most unusual novelty. Fruits are a dark, deep red (almost a shiny black) with heavy green shoulders. Interior is a deep, reddish-green color. Sweet and tasty. Matures extremely early.

BLOODY BUTCHER - 55 days (indeterminate) Heirloom

A sensational, multi-purpose tomato, very early and high yielding. Strong tomato flavor in medium, round, 4 oz. fruits that are a deep, dark red inside and out. Potato-leaved plants are fast growing

BURPEE'S LONG KEEPER - 78 days (indeterminate) Heirloom

Keeps 2-3 months after harvest! 6 oz. fruits have golden orange-red skins. Plant late for fall harvest and winter storage. Store at 65°F.

BUSH EARLY GIRL-54 days (Determinate) This "determinate sister" to popular Early Girl delivers the same desirable qualities in a compact, patio-sized variety. Extremely early with huge yields of firm, meaty, flavorful fruits that are larger than Early Girl - a full 4" is diameter.

CELEBRITY Hybrid - 70 days (determinate)

A 1984 ALL-AMERICA SELECTIONS WINNER. Exceptionally flavorful, firm 7-to-8-ounce fruit on strong vines with good cover and outstanding disease resistance. Highly productive and adaptable.

CHAMPION II Hybrid - 63 days (indeterminate)

If you love the ever-popular Champion Hybrid, then you're sure to become a fan of this variety. Features even more disease resistance while maintaining the same delicious flavor and timing. Delivers high yields of meaty, 6 to 7 oz. fruits. Also exhibits intermediate resistance to Yellow Leaf Curl Virus.

DARKSTAR V-70 to 75 days (Indeterminate)**NEW**

Large purple beefsteak-type fruits are oblate, ribbed and full of visual appeal Dark purple/red flesh has a rich, smoky flavor and texture that is very similar to 'Cherokee' and 'Carbon' Expect higher yields, healthier plants and better fruit quality than most heirlooms. Highly resistant to Late Blight. Weigh 8 to 10 oz. Indeterminate

EARLY GIRL Hybrid - 52 days (indeterminate) Heirloom

Comes in first as an early slicing tomato and our customer's favorite early variety. Dependable large harvests of flavorful solid 4 to 6 oz. fruit. Disease resistance is good, contributing to its excellent performance in almost any climate.

GILL'S ALL-PURPOSE- 80 days (Determinate) Heirloom

We're pleased to continue to offer this piece of Northwest history. A cross between Wasatch Beauty and Pepper tomato, Gill's All-Purpose was bred in 1947 by the Gill Brothers Seed Company in Portland, Oregon. Outstanding yields of 3-3 ½ inch deep red fruit with rich tomato flavor. Determinate plants are quite disease resistant.

GOLDEN JUBILEE - 75 days (indeterminate)

Smooth skinned large yellow fruit. Can be staked. This vigorous growing tomato variety produces a big tomato crop with little space and effort. These delicious fruits are excellent for salads, canning, juice, and relish. Less acid than the red tomatoes. Adds nice color to a lunch or dinner garden salad. Also known as Yellow Jubilee.

HEIRLOOM BLACK – 71 days (indeterminate)

crossed Cherokee Purple with Carbon to create a flattened, globe-shaped, dark purple fruit with delicate skin, green-tinted flesh and a full robust flavor. Lots of big, 8 to 12- oz. fruits!

HUSKY RED – 67 days (indeterminate) V, FF, A, St.

Early maturing plant produces good yields of 5 to 7 oz red tomatoes. They are very sweet and flavorful. Perfect for sandwiches, salads, and slicing. This variety requires no pruning. Perfect for container gardening, patios, or small gardens where space is very limited! Excellent choice for home gardens. Disease Resistant:

JAPANESE BLACK TRIFELE - 81 days (indeterminate) Heirloom

Russian in origin. In Russia the Trifele varieties of tomatoes (of which there are several colors) are highly prized and command big prices. This short, potato - leaf plant yields prolific quantities of 6 oz. fruit that looks like a beautiful mahogany-colored Bartlett pear with greenish shoulders. Very tasty flesh with a meaty core that produces luscious fruit all summer long. A work of art sliced out on a plate and a wonderful flavor that possesses extraordinary rich and complex flavors. The Black Trifle is one of the blackest varieties and is resistant to cracking.

JETSETTER - 64 days (indeterminate)

This tomato is earlier than Jet Star, with better disease resistance. Jetsetter sacrifices nothing for its early maturity- delivers great real tomato flavor in large 8 oz fruits that are smooth, juicy, flattened globes, with consistently huge yields and good disease resistance.

LEMON BOY - 72 days (indeterminate)

Plant produces good yields of large 8 oz bright lemon-yellow tomatoes. Tomatoes are very flavorful. Excellent for salads and gourmet dishes.

MOONGLOW – 85 days (indeterminate)

Bears heavy yields of beautiful, 6-8 oz., 2", blunt-pointed globes. A brilliant, warm-orange slicer with great flavor. Moonglow is considered, by many tomato lovers, the tomato with the best texture and flavor of any yellow-gold tomato. A good choice for a market tomato because of its long shelf-life and delicious taste.

OREGON SPRING - 58 days (determinate)

A cold-tolerant tomato developed by OSU for short season gardeners. Compact plants produce concentrated sets of medium to large fruit – nearly seedless. Juicy and tender with full tomato flavor.

PATIO Hybrid - 70 days (determinate)

A favorite of those who enjoy container gardening or have limited space. The vines are extremely compact, yet they produce medium-sized, deep oblate fruits that are smooth, firm and flavorful.

TASTI-LEE – 75 days (determinate)

An artful balance of sweetness and acidity, with true tomato flavor and rich red color. Here's your all-star tomato, the 6-9 oz. fruits ready to rev up sandwiches, sauces, and salads. Loaded with health-giving lycopene-up to 40% more than other varieties.

TAZMANIAN CHOCOLATE- 75 days(indeterminate)**NEW**

This is an open-pollinated stabilized cross between New Big Dwarf and Paul Robeson. The result is a tomato with the same size, color and shape of Paul Robeson growing on a dwarf-sized plant. Plants have dark green rugose foliage and grow 3 to 4 feet tall, bearing deep maroon tomatoes with rich, complex flavor.

WILLAMETTE - 70 days (determinate)

Developed at Oregon State University for shorter season areas. The upright plants do not require staking. Crack resistant medium-sized fruits are meaty, smooth and solid, mild flavored. A favorite here in the Willamette Valley for its good production in spite of false springs, late chills, damp, or dry summers.

SALAD**4th OF JULY** Hybrid - 49 days (indeterminate)

Imagine fresh tomatoes for your big "4th" cookout-juicy, tasty, and just right size for salads or eating out of hand. Plants bear early and continuously all summer. Excellent for canning

FLAMME- 70 days (indeterminate)**NEW**

AKA Jaune Flamme, these beautiful orange salad tomatoes are very juicy and have a good, sweet flavor with fruity overtones. Tomatoes weigh 2 to 3 oz and are a lovely persimmon-orange color both inside and out.

GERMAN LUNCHBOX-70-80 days Heirloom

This heirloom was brought into the seed store a few years ago by a local gentleman who had been saving this tomato for many years. His family brought this variety to the USA when they immigrated here. The fruit are the size of a small egg, vibrant pink, sugar sweet and begging to be eaten. Perfectly sized for salads or putting in the lunchbox! A favorite!

GLACIER - 63 days (semi-determinate)

Extremely early, cold-tolerant, high-yielding special strain. Begins flowering when only 4" high and bears tasty tomatoes 45 days later. You can expect higher-than-average yields of 2-3 oz. fruits with outstanding flavor for such an early tomato.

GREEN ZEBRA - 75 days (indeterminate) Heirloom

A unique and delicious salad tomato. 3 oz. fruits ripen to amber-green with darker green stripes. The light green flesh is very flavorful, sweet yet zingy. This one is a real taste treat.

SIBERIAN-48 days (determinate)**NEW**

The earliest tomato – begin harvesting only 7 weeks after transplanting! This Russian variety sets fruits down to 38°F on vigorous, bushy plants. The small, round tomatoes are versatile, and are especially well-suited for sauces, juices, and pastes. Fruits average 3 to 5 oz. in large clusters up to 30.

STUPICE - 52 days (indeterminate) Heirloom

From Czechoslovakia, this is an extremely early cold-tolerant tomato that bears an abundance of 2 oz flavorful and sweet tomatoes. This variety has become a garden favorite for its earliness, productivity, and truly wonderful taste.

PASTE**AMISH PASTE** - 74 days (indeterminate) Heirloom

Dates back to the turn of the century, and is the best for sauces and canning. Deep red fruits, about 8 ozs, are large for canning types with "real tomato" flavor. Not overly acidic.

FRESH SALSA - 65-75 days (determinate)

EXCELLENT FOR SALSA!! The fruit on this one stays perfectly firm and sweet when chopped up into cubes. Fruit is ideal for fresh salsa, bruschettas and "light" Italian sauces. Bushy plants are loaded with 4-5oz plum shaped fruits 2 ½-3 ½" by 2".

GIANT GARDEN PASTE-Hybrid VF 89 days (indeterminate)

The biggest, most beautiful paste tomato you will ever grow. Bright red, boat-shaped fruits an astonishing 8 to 10 oz.- twice the size of 'Roma'- and have a wonderful balance of sugar sweetness and tangy acids. Flesh is solid and meaty with lots of gel to make perfect pastes and sauces! Attractive, slightly ribbed fruits have superb crack-resistance and are ideal for fresh eating too! Excellent disease resistance.

ROMA-VFA - 75 days (determinate)

Roma is considered to be the most well known paste type tomato, perfect for sauces, pastes and ketchup. Its heavy crops of bright red, pear shaped fruits are nice and meaty, with very few seeds.

SAN MARZANO - 80 days (indeterminate) Heirloom

A little later than Roma, with superb flavor in slightly rectangular-shaped fruits, 3 ½" x 1 ½", that are bright red and hang in large clusters. Holds well on the vine and in storage. Extra-high solid content is perfect for canning.

SAUSAGE - 75 days (indeterminate) Heirloom

Here's an unusually shaped tomato with fruits up to 6" long, like huge, red banana peppers. A prolific paste tomato, with very fine flavored meat that is especially ideal for ketchup or sauces.

SUPER SAUCE - 70 days (indeterminate)

It's 'SuperSauce'! The new tomato superhero. A whole lot bigger, a whole lot better, a Roma with aroma. Weighing in at 2lbs., a whopping 5 1/2" tall and 5" wide, 'SuperSauce' produces gallons of luscious, **seedless sauce** from a single plant harvest—one tomato fills an entire sauce jar. Easy-to-grow, disease-free plants yield a summer long supply of exquisitely-flavored marinara, tomato gravy, or meat sauces.

YAQUI-Hybrid VFFNA 75 days (determinate)

From the breeder of Big Beef comes a huge set of bright red, blocky, meaty fruits on a tidy, compact plant. Extra-large plum-shaped fruits are unbeatable for canning, sauces and pastes. Exceptional disease resistance.

CHERRY

CHERRY FALLS- 60 Days (semi-determinate)

AKA Cherry Fountain. Tidy habit and good early establishment makes this a good choice for adding to mixed flowering container and large baskets. Very vigorous, 1-1/2 to 1-3/4 oz., juicy, bright red fruits crop heavily over a long harvest period. Plants cascade 36 to 40" and reach just 6" in height.

CHOCOLATE CHERRY-70 days (indeterminate)

Unusually colored, deep wine-red fruits boast a complex flavor profile in one inch round cherries. Indeterminate plant produces trusses of 8 fruits that don't crack and can be harvested early and allowed to ripen inside without sacrificing quality. Suitable for home gardeners and market growers.

CHRISTMAS GRAPES - 75 days. (indeterminate)**LIMITED QTY**

Plant produces high yields of 1" grape shaped red tomatoes. Tomatoes grow in clusters of 10 to 20. They are very tasty and turn red when mature. Excellent for salads and snacks.

JULIET Hybrid - 60 days (indeterminate) Heirloom

1999 ALL-AMERICA SELECTIONS WINNER. Elongated cherry tomatoes grow in grape-like clusters and really load up on vigorous vines. The 1oz. fruit has red, glossy skin and wonderful, sweet flavor. As a bonus, the fruit is crack-resistant and holds on the vine better than most cherries. Expect high yields from plants that are tolerant to late blight and leaf spot.

LARGE RED CHERRY - 72 days (indeterminate)

An excellent salad tomato, with clusters of 5 tomatoes, on spreading, hardy vines with dark green foliage. Full-season, high yields of deep scarlet, round, 1-1¼" diameter, flavorful fruits. Green fruits may be pickled; ripe ones are used fresh or for preserves.

SNOW WHITE - 75 days (indeterminate)

Delightful ivory-colored cherry tomatoes ripen to pale yellow and are deliciously sweet without being sugary. This is one you will find yourself snacking on in the garden because it tastes so good.

SUN GOLD - 57 days (indeterminate)

Positively luscious, bite-sized golden beauties overflowing with an abundance of flavor. Thin-skinned, with a juicy flesh that holds its flavor.

SUN SUGAR FT - 62 days (indeterminate)

Plant produces heavy yields of very flavorful and juicy orange cherry tomatoes. Tomatoes grow in clusters and turn orange when mature. This variety has thin skin and is crack resistant. Very sweet and very flavorful. Excellent in salads or eaten alone as a treat.

SWEET APERITIF- 80 days (indeterminate)**NEW**

The Brits who bred this variety say it's the sweetest yet – even sweeter than Sun Gold! And with a brix (sugar) level of 13, they may be right! The sweetness is matched with the right amount of acid to produce a cleansing, tangy flavor. Indeterminate plants are covered with 1/2-oz, bite-size, luscious fruits.

SWEET MILLION Hybrid - 60 days (indeterminate)

Terrific flavor in high yields of super sweet cherry tomatoes that have an excellent, hybrid bred disease resistance. Long chains of smooth, dark red, 1-1½" fruits are produced on large, vigorous plants. Matures nice and early and produces until frost.

TUMBLING TOM YELLOW-70 days(determinate)**NEW**

A bright yellow version of Tumbling Tom Red, with the same pleasing characteristics. Our only two "weeping tomato" trails up to 24 inches, making it perfect for containers. Heavy yields of bright yellow, 1" to 2" fruits. Plants are only 6" wide; plant several together. Plant both colors for a spectacular display.

YELLOW PEAR - 70 days (indeterminate) Heirloom

Vigorous vines produce high yields of 1½"cherry type, plum shaped tomatoes in clusters. Very sweet and mild, great eating fresh like plums off the vine, or ideal for salads or preserves. Bears full season.

TOMATILLO

PURPLE - 70 days (indeterminate)

This unusual, deep purple tomatillo makes an ideal salsa with its sweet-tart flavor. The plant has striking purple veins in the leaves, and the husks are light green to buff colored. Very decorative as a garnish.

TOMA VERDE - 70 days (indeterminate)

Unusual 2 inch fruits are harvested green – the husks are removed before cooking. A staple ingredient in Mexican Salsa Verde (green sauce). Tart, yellow-green fruits can also be used to add a distinctive taste to salads.

Vegetable plants love to have compost in their soil. We carry several types of compost for your garden: 'Gardner's Choice™' Organic Compost (a blend of the following composts), Tack Box Compost (aged horse manure and sawdust), Steer Compost, Mint Mix, and Mint Compost.
